**1. General.** a. It is of primary importance that Headquarters, Department of the Army, have available on a current basis, information relating to the number of commissioned and warrant officer personnel, ordered to active duty (AD) or active duty for training (ADT), or appointed in Regular Army from other Army components (ARNGUS, USAR, AUS), in relation to the procurement program from which commissioned or appointed.

b. A code entitled "Procurement Program Number" (hereinafter referred to as "PPN") has been devised which, together with other personnel data available, will readily provide the information outlined in a above.

**2. Explanation of terms.** For the purpose of this regulation, the following will apply:

a. **AD.** Full-time duty in the active military service of the United States, other than ADT.

b. **ADT.** Full-time duty in the active military

service of the United States for training purposes.

c. **Voluntary order or recall to AD.** The ordering or calling of individual members of the Reserve components of the Army or retired Army personnel for full-time duty in the active military service of the United States with their consent.

d. **Involuntary order or recall to AD.**

(2) The ordering of USAR or ARNGUS units and members thereof to full-time duty in the active military service of the United States without their consent.

**3. Orders.** a. Department of the Army special orders announcing appointments in Regular Army will include two PPN's for each individual. Each PPN will be identified as applicable to—

\*This regulation supersedes AR 601-110, 16 June 1969.

RETURN TO ARMY LIBRARY  
ROOM 1 A 518 PENTAGON

(1) Appointment in Regular Army and orders to active duty as Regular Army officer.

(2) Appointment in Regular Army while on active duty in another Army component.

*b.* Special orders or letter orders prepared by The Adjutant General or by major commanders will include the proper PPN immediately following the *authority* for order to AD or order to ADT for non-Regular Army officer personnel. For example: By direction of the Secretary of the Army, under provisions of AR 145-1 (PPN S1).

**4. Officer qualification record.** DA Form 66 of commissioned and warrant officer personnel will, at time of entry on AD, ADT, or appointment in Regular Army from other Army components, be annotated to indicate the applicable PPN and the effective date in item 33, "Remarks."

**5. Procurement program numbers.** The PPN's to be utilized, as outlined above, for the identification of all commissioned and warrant officer AD gains, ADT gains, and appointments in RA from other Army components are listed in appendix A (Regular Army gains) and appendixes B and C (other than Regular Army gains).

*a.* Procurement Program Numbers outlined in appendix A can apply only to—

(1) Personnel appointed as commissioned officers in the *Regular Army* with simultaneous order to active duty effective with the date of oath of office (PPN's in the "A," "B," "C," "G," and "H" series codes).

(2) Personnel appointed as commissioned or warrant officers in the Regular Army while on *active duty* in a non-Regular Army commissioned or warrant officer status, or while on active duty in an enlisted status (PPN's in the "D," "E," and "F" series codes).

*c.* Procurement Program Numbers S3, S4, SC, and SD in appendix B can apply only to ROTC personnel appointed as non-Regular Army commissioned officers with the requirement to perform 6 months' active duty for training (ADT).

*d.* Procurement Program Numbers in appendix C can apply only to personnel appointed and/or ordered to active duty as non-Regular Army commissioned officers in MC, DC, VC, ANC, or AMSC branch.

**6. Responsibilities.** In connection with paragraph 1a, it is essential that the PPN be included in the morning report remark announcing the appointment in Regular Army while on active duty in another Army component, or order to active duty for training. Accordingly, the following will apply:

*a.* The order-preparing agency of the major command headquarters will determine the proper PPN for officers ordered to active duty or active duty for training, and include this data in special or letter orders. In those cases where an individual is ordered to active duty as a non-Regular Army officer, but prior to effective date of order to active duty, subject individual is appointed as Regular Army, the order-preparing agency of the major command headquarters will revoke the initial order and notify the organization to which the individual was initially assigned that such order has been revoked. When time does not permit, notification will be made by electrical transmission, which will be confirmed by the revocation order.

*b.* For appointment in Regular Army, the appropriate PPN will be selected from the DA appointment order for inclusion in the morning report remark.

*c.* The unit personnel officer will assure that the PPN is included in the morning report remark reporting the appointment in the Regular Army, on the effective date of the action.
