1. Purpose. This regulation establishes the Application for Recall Program for retired enlisted personnel which is designed to provide a means whereby nondisabled retired enlisted personnel may apply for recall to active duty.

2. General. *a.* Each year a significant number of nondisabled enlisted personnel who hold a PMOS which is in short supply voluntarily retire with less than 27 years service. Many of these personnel experience difficulty in adjusting to civilian life and quite frequently request permission to reenlist. Such permission is precluded by current regulations.

b. The Department of the Army frequently finds itself in a position of not being able to meet requirements for certain short or critically short MOS which are well represented in the retired ranks.

c. The Application for Recall Program will permit the merging of individual desires to return to active service and Army requirements for trained personnel in specific MOS.

3. Eligibility. All nondisabled retired enlisted personnel, grade E-5 and above, who have not yet reached their 50th birthday and who have completed less than 27 years of active Federal service may apply for recall under this program, provided they meet retention physical standards.

4. Physical examination. Report of current physical examination must accompany the appli-

cation for recall. Applicants will report to the nearest Army recruiting main station to complete required physical examination. Retention standards apply. Local U.S. Army recruiters are authorized to provide necessary transportation in accordance with current procedures for forwarding applicants for enlistment to recruiting main stations. Upon completion of required physical examination, applicants will be released and provided necessary transportation for return to point of origin to await notification of decision on their application for recall to active duty.

5. Submission of application. Applicant for recall will present letter, in duplicate, prepared in accordance with figure 1 to recruiting main station personnel. This will constitute authority to perform required physical examination. Completed report of physical examination will be appended to the individual's letter of application and forwarded by the recruiting main station to Chief Enlistment Eligibility Activity, 9700 Page Boulevard, St. Louis, Mo., 63132.

6. Selection. Applications will be screened by the Chief of Personnel Operations for MOS for which a known or anticipated requirement exists. Selection for recall will be based upon the needs of the Army. In no instance will recall be authorized for those MOS which reflect an imbalance or overage status.
