CHAPTER 1

GENERAL INFORMATION

A. PURPOSE

This Manual explains DoD policies and procedures on awarding Defense decorations and Service awards; nonmilitary decorations; the acceptance of foreign military decorations by members of the Armed Forces of the United States; and the Office of Secretary of Defense Identification Badge (hereafter referred to as the "OSD Badge"). It describes the various Defense awards; the basis and eligibility requirements for the award; and who is eligible to receive and who is eligible to authorize the award. It tells how to prepare, submit, and process recommendations for Defense decorations and the Joint Meritorious Unit Award (JMUA).

B. DEFINITIONS

1. Joint Activity. For the purpose of this Manual and the eligibility for Defense decorations, the term "joint" connotes activities, operations or organizations in which elements of more than one Service of the same nation, as reflected in joint manpower documents, perform joint missions under the auspices of the OSD; the Chairman, Joint Chiefs of Staff (CJCS); or the commander of a Unified, Specified, or Combined Command. Supporting elements of such activities that are comprised of one Military Service shall not be considered elements of a joint activity nor be eligible for Defense decorations. A joint task force (JTF) commander, the staff, and other Service members assigned and/or attached to a JTF as individuals (not as members of a Service unit) may also be eligible for Defense decorations to recognize exceptional service or achievement. Members of Service-unique units assigned and/or attached to a JTF retain eligibility for award of personal decorations from their parent Services. They may not be awarded Defense decorations.

2. Meritorious Service. Individual performance must exceed that expected by virtue of grade and experience, based on accomplishments during an entire tour of duty.

3. Outstanding Achievement. An outstanding achievement decoration, also known as an "impact award," is rare, and is intended to recognize a single specific act or accomplishment, separate and distinct from regularly assigned duties, such as a special project. It is not intended to provide a means to authorize additional decorations or a decoration when the conditions for a completed period of service have not been fulfilled. An outstanding achievement normally covers a short period of time with definite beginning and ending dates. A recommendation for an outstanding achievement award should be submitted only when the achievement is of such magnitude that it cannot be recognized in any other way than by award of a decoration, and to delay such recognition until completion of the individual's period of service would diminish the significance of the accomplishment.

4. Joint Task Force (JTF). A Joint Task Force is defined as a force composed of assigned or attached elements of the Army, the Navy or the Marine Corps, and the Air Force or two or more of these Services, that is constituted and so designated by the Secretary of Defense, by a Commander in Chief (CINC), or by the commander of a subordinate unified command or an existing JTF. A JTF is established when the mission has a specific limited objective and does not require overall centralized control of logistics. The mission assigned a JTF should require execution of responsibilities involving two or more Services on a significant scale and close integration of effort, or should require coordination within a subordinate area or coordination of local defense of a subordinate area. A JTF is dissolved when the purpose for which it was created has been achieved.

5. Principal Staff Assistants. The principal staff assistants are: the Under Secretaries of Defense (USD); the Assistant Secretaries of Defense (ASD); the General Counsel of the Department of Defense (GC, DoD); and the Assistants to the Secretary of Defense (ATSD).

6. Secretary Concerned. The Secretaries of the Military Departments.

C. POLICY

It is DoD policy that members of the Armed Forces of the United States shall, through the DoD Military Awards Program, receive tangible recognition for acts of valor, exceptional service or achievement, and acts of heroism not involving actual combat.

D. RESPONSIBILITIES

Specific responsibilities involving individual Defense decorations or service awards are outlined in the applicable chapters of this Manual. The general responsibilities involving the management of the DoD Military Awards Program are:

1. The Assistant Secretary of Defense (Force Management and Personnel) (ASD(FM&P)) shall:

a. Develop, publish, and maintain a single DoD Manual governing the DoD Military Awards Program, consistent with DoD 5025.1-M (reference a).

b. Ensure that implementing documents by the Military Departments and DoD Components conform to pertinent laws, executive orders, regulations, and DoD policy.

c. Provide the policies and procedures necessary to manage the DoD Military Awards Program.

d. Adjudicate individual exceptions to policy.

2. The Director of Administration and Management, Office of the Secretary of Defense (DA&M, OSD) shall:

a. Provide the policies governing the issuance of the OSD Badge.

b. Administer through the Director, Washington Headquarters Services (WHS):

(1) The procurement and issuance of the OSD Badge.

(2) The entrance date of Service members proposed for authorization to wear the OSD Badge.

(3) The procurement, stocking, and issuance of certificates and citations for the Defense Distinguished Service Medal and the Defense Superior Service Medal.

(4) The processing of all individual Defense decoration nominations not handled by the Joint Staff. This includes all DDSMs, and all DSSMs and below from OSD, Defense agencies and field activities.

3. The Director, Defense Logistics Agency (DLA), shall:

a. Procure, stock, and issue Defense decorations and awards for OSD and DoD field activities, the Joint Staff, Unified and Specified Commands, joint activities, the Defense Agencies, and the Military Departments.

b. Procure, stock, and issue certificates for the Defense Meritorious Service Medal, Joint Service Commendation Medal, and Joint Service Achievement

Medal, as authorized by the ASD (FM&P), for OSD and DoD field activities, the Joint Staff, Unified and Specified Commands, joint activities, the Defense Agencies and the Military Departments.

4. The Secretaries of the Military Departments shall:

a. Establish procedures within their respective Departments to ensure compliance with the policies and procedures outlined in this Manual.

b. Administer the Military Service awards program for non-Defense decorations or awards within their Department.

c. Comply with the provisions of E.O. 3524, (reference (b)), as they pertain to the designing of medals and insignia.

5. The Secretary of the Army shall:

a. Provide for the furnishing of heraldic services under regulations prescribed by him or her and based upon the authority contained within 10 U.S.C. 4594 (reference (c)), an authority designated by him or her may, upon the request of, and subject to approval by, the Secretary of another Military Department, design flags, insignia, badges, medals, seals, decorations, guidons, streamers, final pieces for flagstaves, buttons, buckles, awards, trophies, marks, emblems, rosettes, scrolls, braids, ribbons, knots, tabs, cords, and similar items for the requesting Department.

b. Advise other Federal Agencies on matters of heraldry.

c. Prescribe regulations providing for reimbursement for services furnished.

CHAPTER 2

MEDAL OF HONOR (MOH) RECOMMENDATIONS

A. PURPOSE

The purpose of this chapter is to furnish guidance to the Military Departments in the processing of recommendations for the MOH.

B. PROCEDURES INVOLVING RECOMMENDATIONS FOR THE MOH

1. The Secretary concerned shall establish procedures for processing recommendations for the award of the MOH within his or her Department. However, as a minimum, these recommendations shall contain the endorsement of the subordinate Unified Commander or JTF Commander, if involved; the Unified or Specified Commander concerned; and the CJCS. After endorsement by the CJCS, the recommendation shall be referred to the Secretary concerned for appropriate action.

2. Except as provided in 10 U.S.C. 3744 or 8744 (reference (c)), recommendations for the Army and Air Force MOH must be entered formally into official channels within 2 years of the act warranting the recommendation, and awarded within 3 years. Recommendations for the Navy-Marine Corps MOH, except as provided in Section 6248 of reference (c), must be formally entered into official channels within 3 years of the act warranting the recommendation, and awarded within 5 years.

3. Recommendations for award of the MOH disapproved by a Service Secretary, or the Secretary of Defense, may only be resubmitted if new, substantive and materiel information is provided within the time limits contained in 10 U.S.C. 3744, 6248, and 8744 (reference (c)). The information forming the basis must have been previously unknown and not considered by recommending and disapproving officials. The determination of the existence of new materiel and substantive information being a basis for reconsideration may not be delegated below the Service Secretary.

a. The remaining bases for reconsideration are instances in which a Service Secretary or the Secretary of Defense determines there is evidence of material error or impropriety in the original processing of or decision on a recommendation for award of the MOH. Examples of such instances might be loss of accompanying and/or substantiating documents to the recommendation or proven gender or racial discrimination. Determination of the existence of material error or impropriety in the original processing and decision shall not be delegated below the Service Secretary. In such cases, the Secretary of Defense shall determine the need for legislation.

b. All other instances of reconsideration shall be limited to those in which the formal recommendation was submitted within statutory time limits, the recommendation was lost or inadvertently not acted upon, and when these facts are conclusively established by the respective Service Secretary or other official delegated appropriate authority. These provisions are to protect the integrity and purity of purpose of the MOH by ensuring that all relevant information is submitted and considered while the actions are fresh in the minds of the witnesses.

C. PRESENTATION OF THE MOH

When practical, presentation of the MOH shall be made by the President of the United States, as CINC, in a formal ceremony in Washington, DC. As such, premature public disclosure of information concerning recommendations, processing and approval or disapproval actions is a potential source of embarrassment to those recommended and the Government. In addition, in the

case of approved recommendations, it could diminish the impact of ceremonies at which the presentation is made. Therefore, to prevent premature disclosure, the policy of the Department is not to comment on any MOH case under consideration. Accordingly, the processing of MOH recommendations shall be handled on a "FOR OFFICIAL USE ONLY" basis until the awards are announced officially or are presented.

D. COURTESIES AND PRIVILEGES AFFORDED MOH RECIPIENTS

1. Enlisted personnel who are awarded the MOH are authorized one automatic promotion if not already serving in the highest enlisted grade.
2. Each recipient receives a monthly \$200.00 pension from the Department of Veterans Affairs (DVA).
3. Enlisted recipients who retire with 20 or more, years of service receive a 10 percent increase in retired pay, not to exceed the 75 percent maximum.
4. Recipients are issued a special MOH Travel and Identification Card signed by the Service Secretary. This entitles recipients who are not on active duty and not military retirees to use space available military air transportation.
5. Unlike military personnel and retirees, MOH recipients may wear their uniforms at any time or place they choose. They receive a special uniform issue in conjunction with this privilege.
6. Recipients who are not on active duty and not military retirees are issued a DoD Identification Card, as are their dependents. It authorizes them military commissary, post exchange and theater privileges. All of the Services, consistent with DoD policy, authorize use of morale, welfare and recreation activities, including honorary club membership without dues.
7. Children of MOH recipients are not subject to quotas if they are qualified and desire to attend one of the U.S. military academies.
8. All MOH recipients, as members of the Congressional Medal of Honor Society, receive invitations to attend Presidential inaugurations and accompanying festivities. Military recipients and those who are civil servants have traditionally been authorized administrative absence in lieu of chargeable leave to attend.
9. Some States have special license plates for MOH recipients.
10. The DVA provides a special engraved headstone for deceased recipients of the MOH.
11. Many installation commanders memorialize deceased MOH recipients by naming streets, buildings, or halls in their honor.
12. MOH recipients should be accorded on-base billeting commensurate with the prestige associated with the MOH.

CHAPTER 3

DOD DECORATIONS

A. INTRODUCTION

1. Military decorations are awarded in recognition of individual heroism, meritorious achievement, or meritorious service. In the United States, the tradition of military decorations can be traced back to the American Revolution. The first medals were not part of an organized, systematic plan of awards, but were intended to recognize certain individuals for special occasions. Initially there were six medals awarded by the Continental Congress. The first was presented to General Washington on March 25, 1776. The second was approved by Congress on November 25, 1777, and presented to General Horatio Gates for the defeat of the British under General Burgoyne at Saratoga. The third was presented to General Henry "Light Horse Harry" Lee on September 24, 1779, in recognition of his attack upon the British at Paulus Hook, New Jersey, in July 1779. The next three medals awarded were unique, in that they were to be worn as decorations by the recipients. These were the so-called "André" medals, given to the three American militiamen who captured Major John André, a British intelligence officer, who had been plotting with General Benedict Arnold. These medals were awarded in 1780 to John Paulding, Isaac Van Wart, and David Williams.

2. The organized, systematic plan of awards we have today can be directly traced to actions taken by General Washington in August 7, 1782, when he established the Badge of Military Merit. This decoration, a piece of cloth in the form of a heart, the forerunner of the current Purple Heart, was intended to recognize Service members who displayed unusual gallantry or extraordinary fidelity. Only three of these decorations are known to have been awarded during the Revolutionary War, and after the war the badge fell into disuse leaving the Nation with no official military decoration.

3. In 1847, the U.S. Government established the Certificate of Merit and took its next step toward formally recognizing the individual contributions of Service members. Originally, the certificate was intended to recognize U.S. Army privates for gallantry in action or for specially meritorious service in peacetime. For over 50 years, this Presidential certificate remained unchanged and in 1905, a medal was designed for recipients of the Certificate of Merit. However, on July 19, 1918, the Congress discontinued the medal.

4. The MOH was the first decoration to be designed and authorized for U.S. Service members since General Washington's Badge of Military Merit. On December 21, 1861, President Abraham Lincoln approved the establishment of a MOH for enlisted men of the Navy and Marine Corps. Within 7 months (July 12, 1862), the President authorized a similar decoration for enlisted members of the U.S. Army.

5. Throughout the history of the Armed Forces of the United States, nearly 60 different decorations have evolved. Changes in eligibility criteria have been made over the years and, in some cases, decorations have fallen into disuse; however, the basic hierarchy remains unchanged. The MOH remains the highest military decoration that this Nation can bestow upon a Service member and lesser degrees of recognition are acknowledged by other decorations in descending order from the MOH.

6. Although a formal system for recognition was established, not until 1963 were steps taken to resolve the one major deficiency in the system. No means existed by which Service members assigned to joint activities could be recognized by any decoration other than a Service decoration. Sixteen years after the formation of the Department of Defense, the first Defense decoration -- the Joint Service Commendation Medal -- was authorized by the Secretary of

Defense for award to Service members assigned to joint activities. As with Service decorations, Defense decorations have evolved to where today there are a total of five Defense decorations that complement noncombat Service decorations.

7. The following sections B. through E., below, outline the specific policies and procedures that apply to these five Defense decorations and to those Service members eligible for consideration.

B. GENERAL PROVISIONS

1. Unless otherwise stated, only those members of the Armed Forces of the United States who have rendered superior meritorious service while permanently assigned to a joint manpower program paragraph and line number billet the following joint staffs or joint activities shall be eligible for consideration of a Defense decoration:

- a. OSD.
- b. Defense Agencies.
- c. DoD Field Activities.
- d. The Joint Staff.
- e. Headquarters, Unified Commands.
- f. Joint activities operating under the auspices of OSD, CJCS, and those jointly manned staffs or activities that operate under the direct control of Unified, Specified, or Combined Commands.
- g. Jointly manned staffs within the North Atlantic Treaty Organization (NATO) and Supreme Headquarters Allied Powers Europe (SHAPE) infrastructure.
- h. Joint-Service Schools (staff and faculty members only).
- i. Joint Strategic Target Planning Staff.
- j. Joint activities for which either a Principal Staff Assistant or the Secretary of a Military Department has been designated by either a DoD publication or the Secretary of Defense as the Executive Agent for OSD.
- k. Offices within the Executive Branch.
- l. Other Executive Departments outside the Department of Defense, Independent Establishments and Government Corporations. (See "The United States Government Manual 1987/88," reference (d)).
- m. Selected multilateral international and bilateral organizations in which the U.S. Government participates. (See "The United States Government Manual 1987/88," reference (d)).
- n. Individual mobilization augmentees (IMAs) assigned to joint mobilization manpower billets, as reflected in joint manpower documents, may be awarded Defense decorations on a case-by-case basis. To be eligible for individual Defense decorations, an IMA must normally serve for a minimum of 90 days. With regard to the JMUA, there is no minimum time requirement for eligibility. It is the commander's responsibility to discern who contributed directly to the unit earning the JMUA.
- o. Individuals permanently assigned to joint duty assignment (JDA)

positions approved by the Secretary of Defense are also eligible for consideration of a Defense award.

2. Eligibility for joint awards does not constitute eligibility for JDA credit as governed by chapter 10, U.S.C. 38 (reference (c)).

3. With the exception of the Defense Distinguished Service Medal and the Defense Superior Service Medal, Defense decorations may be awarded to Service members on temporary duty (TDY) to an activity listed in subsection B.1., above. Personnel who are assigned to military department components that are subsequently attached to a joint activity for administrative or exercise purposes shall not be eligible for a Defense decoration. (Note: individual Service members performing as part of a unit whose mission is Service specific (e.g., mobile training teams, ETSS, TAFTS) are not eligible for Defense awards.) The duration of the TDY must be at least 90 consecutive days, and the achievement or meritorious service must be of a truly exceptional nature. Personnel who are TDY for less than 90 consecutive days maintain eligibility for Service awards. Normally, TDY achievement or service shall be recognized by the Joint Service Achievement Medal. Being under operational control of an activity listed in subsection B.1., above, does not constitute Defense award eligibility.

4. No Defense decorations shall be awarded or presented to any Service member whose entire service during or after the time of the distinguished act, achievement, or service has not been honorable.

5. Any Defense decoration for a distinguished act, achievement or service may be revoked if facts, later determined, would have prevented original approval of the decoration. Commanders or staff directors becoming aware of any such instances must immediately report the circumstances and make recommendations, through channels, to the awarding authority for review and determination of appropriate action. Awarding authorities must seek advice from their legal staff in all cases where there is doubt as to the appropriateness of the award action. A decoration also should be revoked if the basis for which it was awarded no longer exists (e.g., the Service member's permanent change of station (PCS) assignment was canceled). When the awarding authority has determined that a Defense decoration should be revoked, the original orders should be revoked and the Service member's notified by the parent Military Service.

6. The number of decorations that may be awarded to a Service member is not limited; however, only one decoration is awarded for the same act, achievement, or period of service. In addition, Defense decorations may not be awarded to any Service member for an act, achievement, or period of service for which a Service decoration has been awarded.

7. No more than one specific decoration (e.g., Joint Service Commendation Medal) may be awarded to any one Service member. Each succeeding act, achievement, or period of service that warrants award of a similar Defense decoration shall be denoted by an oak-leaf cluster worn on the suspension and Service ribbon of the medal.

8. Justification for award of Defense decorations shall be based on meritorious service and achievement while assigned to a joint activity, as defined in chapter 1. The fact that a Service member may retire from active duty from a joint assignment shall not be used to request or justify a higher level award than the actual service, achievement, or tenure in the joint assignment, supports. In other words, defense award recommendations must be based purely on the tour of Joint service and not the Service member's entire career. In those instances where length of the joint terminal assignment, or degree of responsibility, would not qualify a Service member for an appropriate level Defense award on retirement, recommending officials may

consider recommending the Service member for a service award. Any Defense decoration may be awarded upon retirement or separation of a Service member. Again, however, the award recommendation must stand on its own and not take into account the Service Member's previous assignments.

9. Defense decorations may be awarded posthumously. When so awarded, they may be presented to an appropriate representative of the deceased, as determined by the awarding authority.

10. Replacement of Defense Decorations

a. The Service member to whom a Defense decoration has been awarded or the representative of a Service member to whom a Defense decoration was posthumously awarded, may receive a replacement decoration without cost, if the previously issued medal, ribbon, or other device for wear with or in place of an individual decoration has been lost, destroyed, or rendered unfit for use, without fault or neglect on the part of the recipient or the representative. All other replacement decorations are replaced at cost. Miniature decorations are not replaced by the Department of Defense. Such miniatures must be purchased from commercial sources at the Service member's expense.

b. Requests for replacement decorations shall be submitted in accordance with the procedures established by the Military Service concerned. For those Defense decorations that the Military Services are unable to obtain through normal supply channels, the Military Service concerned should obtain the decoration from Chief, Military Personnel Division; Personnel and Security Directorate; WHS, Washington, DC 20301-4000.

11. Requests for exceptions to any POLICY or PROCEDURE pertaining to Defense decorations shall be forwarded to the ASD (FM&P). Disapproval of such requests may be made at any level of command.

C. GENERAL PROCEDURES

1. Each recommendation for a Defense decoration is evaluated on the merits of the justification submitted. Recommendations based on generalities, broad or vague terminology, superlative adjectives, or a recapitulation of duties performed usually do not permit competent evaluation. The justification must be specific, factual and provide concrete examples of exactly what the person did, how well he or she did it, and what the impact or benefits were and how they significantly exceeded expected performance of duty.

2. All recommendations for Defense decorations shall be submitted by official memorandum or letter through command or staff channels to the appropriate approval authority using the format shown in figure 3-1. The narrative justification for either the Defense Distinguished Service Medal or the Defense Superior Service Medal shall not exceed three single-spaced typewritten pages, and for lesser Defense decorations it shall not exceed one single-spaced typewritten page. Supporting documentation only should be included when such documentation is essential to the recommendation.

3. All recommendations placed in official channels must be forwarded to the designated authority for approval or disapproval whether or not intermediate endorsing officials or commanders consider that the criteria for the proposed decoration have been met. Where appropriate, intermediate endorsing officials or commanders may recommend disapproval or comment on the propriety of lesser or higher awards if they do not favor the requested decoration. Placement in official channels is defined as signed by the initiating official and endorsed by a higher official in the chain of command.

4. Each recommendation for a Defense decoration must be entered administratively into command or staff channels within 1 year of the act, achievement, or service to be recognized.

5. Authorities with awarding authority as shown in section D., below, shall administratively review recommendations and take the following actions:

a. Prepare the appropriate citations and certificates for approved decorations (figures 3-2 through 3-11), some of which have DD form numbers. Figure 3-2 represents DD Form 2408, "Defense Distinguished Service Medal Certificate"; figure 3-3 is DD Form 2409, "Defense Distinguished Service Medal Citation"; figure 3-4 is DD Form 2410, "Defense Superior Service Medal Certificate"; figure 3-5 is DD Form 2411, "Defense Superior Service Medal Citation"; figure 3-6 is DD Form 2412, "Defense Meritorious Service Medal Certificate"; figure 3-8 is DD Form 2413, "Joint Service Commendation Medal Certificate"; and figure 3-10 is DD Form 2414, "Joint Service Achievement Medal Certificate." figures 3-7, 3-9, and 3-11 are not DD Forms and are discussed in subparagraph C.5.a.(2) and (3), below.

(1) In preparing DD Forms 2412, 2413, and 2414, the name of the issuing Agency, command, or office shall be typed or lettered above the "Secretary of Defense" line. (The overprinting or typing of the word "For" on the approval line is unnecessary.)

(2) In preparing certificates for the Defense Meritorious Service Medal, the Joint Service Commendation Medal, and the Joint Service Achievement Medal, the name of the issuing Agency, command, or office shall be typed or lettered above the "Secretary of Defense" line. (The overprinting or typing of the word "For" on the approval line is unnecessary.)

(3) Citations for the Defense Meritorious Service Medal, the Joint Service Commendation Medal, and the Joint Service Achievement Medal, as reflected in figures 3-7, 3-9, and 3-11, respectively, shall be used until current stock levels are depleted. Upon depletion, awarding authorities may use their discretion in using bond, parchment, or other suitable paper stock, as outlined in appendix H.

b. When a recommendation for award of a Defense decoration is disapproved, the awarding authority may consider the award of a lesser Defense decoration. If the disapproval is made by either the Secretary of Defense; the ASD(FM&P); the DA&M; or the CJCS, the recommending official may consider the recommendation for any lesser Defense decoration he or she has authority to approve or defer the recommendation to the Service member's parent Military Service for consideration of an appropriate Service decoration.

6. Lost Recommendations

Recommendations officially placed into command or staff channels within the prescribed time limitations, but which were not acted on through loss or inadvertence, may be resubmitted at any time within 2 years after the distinguished act, achievement, or service for consideration to the appropriate awarding authority. Lost recommendations must be forwarded through the same official channels as were the original recommendations. If those channels no longer exist, recommendations are forwarded through the channels that replaced the original channels. Consideration of an award under these provisions is contingent on the proponent for an award presenting the evidence required below. Recommendations not so documented shall be returned without action.

The resubmission must include:

a. A copy of the original recommendation or its substantive

equivalent. As a minimum, the recommendations should be accompanied by statements, certificates, and affidavits corroborating the events or services involved. The person signing a reconstructed award recommendation must be identified clearly in terms of his or her official relationship to the intended recipient at the time of the act or during the period of service to be recognized.

b. Conclusive evidence that the recommendation was officially placed in command or staff channels within the prescribed time limit (paragraph C.4., above).

c. Conclusive evidence of the loss of the recommendation or the failure to act on the recommendation through inadvertence.

7. Reconsideration of Disapproved Recommendations

a. A request for reconsideration of a disapproved or downgraded recommendation must be placed in official channels within 1 year from the date of the awarding authority's decision. One time reconsideration by the award authority shall be conclusive.

b. When a lesser decoration than that recommended is approved, and the originator believes that the higher decoration is warranted, he or she must forward additional justification, not to exceed two single-spaced typewritten pages, to the awarding authority. If the higher award is approved, action is taken by the awarding authority to revoke the lesser awarded Defense decoration.

c. Recommendations previously disapproved by the awarding authority are submitted for reconsideration only if new, substantive and material information is furnished and the time limits specified above do not preclude such action. Requests for reconsideration must be forwarded through the same official channels as the original recommendation. The additional justification for reconsideration must be in letter format, not to exceed two single-spaced typewritten pages. A copy of the original recommendation, with all endorsements, and the citation must be attached.

CHAPTER 4

JOINT MERITORIOUS UNIT AWARD (JMUA)

A. INTRODUCTION

1. Unit awards recognize entire organizations for outstanding heroism or achievement performed during periods of war, international tension, national emergencies, or extraordinary situations that involve national interests. They are not intended to recognize single, individual actions, but instead to acknowledge the combined efforts of every member of an organization.

2. Appendix B describes the U.S. unit awards that have been authorized for the Armed Forces of the United States. Until 1981, the accomplishments of joint activities could only be recognized by Service unit awards. However, due to the very nature of these activities and the varying criteria among the Services, it became necessary to establish a means by which joint activities could be recognized. With the JMUA, the Department of Defense provides a consistent means for recognizing such activities.

3. The JMUA, awarded in the name of the Secretary of Defense, is intended to recognize joint units and activities for meritorious achievement or service, superior to that which is normally expected. The policies and procedures pertaining to this unique award are outlined, below.

B. ELIGIBILITY REQUIREMENTS

1. General

a. The JMUA shall be awarded only to joint units or activities. For the purpose of this award, a joint unit, activity, or task force is considered to be any DoD activity consisting of elements of more than one Military Service and meeting the following criteria:

(1) Reports through either Unified, Combined, or Specified Command channels, provided that the command is also a joint command, to the CJCS, or directly to an OSD Principal Staff Assistant.

(2) Pursues a joint mission under the cognizance of the Secretary of Defense; the CJCS; the commander of a Unified, Specified, or Combined Command that is also a joint command; or the Secretary of a Military Department that has been designated the Executive Agent for the Secretary of Defense.

b. Headquarters and support staffs, including special projects operating under the direct auspices of either an OSD Principal Staff Assistant or the CJCS shall not be eligible for award of the JMUA.

c. The JMUA shall not be awarded to any DoD activity that has received any other unit award for the same achievement or period of service.

d. A JTF may be awarded the JMUA. If a JTF is awarded a JMUA, every member assigned/attached to the JTF (including TDY and temporary assigned duty (TAD) personnel), either as individuals or as members of an assigned and/or attached unit, are eligible to wear the JMUA ribbon, under the 30-day rule outlined in subsection G.2., below. Services may award Service unit awards to their participating units for all periods not recognized by a JMUA. Eligibility commences with issuance of this publication. It is not retroactive.

e. The outstanding accomplishment by a unit or activity of its normally assigned and expected mission is not in and of itself sufficient

justification for award of the JMUA.

2. Specific. The JMUA recognizes meritorious achievement or service, superior to that which is normally expected, under one of the following conditions:

- a. During action in combat with an armed enemy of the United States.
- b. In a declared national emergency situation.
- c. Under extraordinary circumstances that involve national interests.

C. PREPARATION OF RECOMMENDATIONS

1. Recommendations for the JMUA must be in narrative format (see figure 4-1). As a minimum, the recommendation must include the following:

- a. Name and location of unit, activity, or organization.
- b. Inclusive dates for the award.
- c. A narrative justification containing specific and factual data about what the activity accomplished, how it was done, what the benefits or results were, and why or how the achievement or service significantly exceeded normal unit duty performance. The narrative justification shall not exceed three single-spaced typewritten pages. Supporting documents as appropriate may be attached.

2. Award recommendations shall be endorsed by commanders at all levels.

D. SUBMISSION OF RECOMMENDATIONS

1. Recommendations for the JMUA shall be submitted through command channels as follows:

a. Recommendations for joint activities that report directly to an OSD Principal Staff Assistant or to the Secretary of a Military Department, for which he or she has been designated the Executive Agent for the Secretary of Defense, shall be forwarded to the Deputy Assistant Secretary of Defense (Military Manpower and Personnel Policy) (DASD(MM&PP)), Office of the Assistant Secretary of Defense (Force Management and Personnel) (OASD (FM&P)).

b. Recommendations for joint activities that report directly to or through the CJCS shall be forwarded to the Director, Joint Staff.

2. Recommendations must be entered administratively into command channels within 2 years of the achievement or service to be recognized.

E. APPROVAL AUTHORITY

The JMUA is awarded in the name of the Secretary of Defense; however, authority to award is delegated to:

1. The ASD(FM&P), or designee, for activities that report directly to an OSD Principal Staff Assistant or for which the Secretary of a Military Department has been designated Executive Agent for the Secretary of Defense.

2. The CJCS, or designee, for activities that report directly to or through the CJCS.

F. ELIGIBLE ACTIVITIES

See appendix C for a list of joint units or activities that have been awarded the JMUA.

G. MANNER OF WEAR

1. The JMUA shall have precedence after the Presidential Unit Citation, but before the Military Service unit awards.

2. Only those members of the Armed Forces of the United States who were present at the time and directly participated in the service or achievement for 30 days or more, or for the entire period cited if less than 30 days, shall be authorized to wear the JMUA ribbon. Award of the JMUA to a JTF shall include all military members assigned or attached to the JTF (including members of assigned or attached units) during the cited period, within the 30-day rule outlined above. Local commanders may waive, on an individual basis, the 30 day minimum time requirement for individuals (e.g. Reserve personnel on active duty and TDY and/or TAD personnel), who, in the purview of the commander contributed directly to the achievement of the JMUA, and were assigned to the awarded unit during the approved time frames.

3. An oak-leaf cluster is authorized for wear for each additional award of the JMUA.

4. Streamers shall be obtained by the unit through normal supply channels. Eligible units of a JTF awarded the JMUA are authorized streamers in accordance with their Service's policies.

H. EXCEPTIONS TO POLICY

Requests for exceptions to policies or determinations relating to eligibility for the JMUA shall be forwarded through appropriate command channels to the Chief, Military Personnel Division, Personnel and Security Directorate, WHS, for processing to the ASD(FM&P). Disapproval of such requests may be made at any level having an established command or staff position authorized in the grade of O-8.

CHAPTER 5

U.S. NONMILITARY DECORATIONS

A. PURPOSE

The purpose of this chapter is to furnish policy guidance to the Military Departments regarding the recognition and wearing of U.S. nonmilitary decorations.

B. POLICY

1. Members of civilian groups recognized under the provisions of P.L. 95-202 (reference (h)) will not receive military decorations if the recognized group had a civilian system of decorations. Such civilian decorations are considered by the Department of Defense as equivalent to military awards that would have been issued to military members for similar acts, achievements, or periods of service. This policy conforms to DoD guidance that precludes multiple awards for the same acts, achievements or periods of service (see chapter 3, Paragraph B.5.).

2. Members of the Armed Forces of the United States who are authorized to accept and wear U.S. nonmilitary decorations shall observe the following when wearing such decorations or the ribbons symbolic, thereof:

a. U.S. nonmilitary decorations shall be worn immediately following U.S. military decorations and preceding service medals.

b. Normally, when a Service member has been awarded and is authorized to wear more than one U.S. nonmilitary decoration, such decorations shall be worn in the order of date of acceptance. However, there are two exceptions to this policy. For members of the Military Services, when two or more decorations from the same Agency are worn, the order shall be in accordance with the precedence established by the awarding Agency regardless of date of acceptance. For members of the U.S. Coast Guard, precedence for all U.S. nonmilitary decorations shall be determined by the Commandant, U.S. Coast Guard.

c. No U.S. nonmilitary decoration shall be worn on the Service member's uniform, unless at least one U.S. military decoration or service medal is worn at the same time.

CHAPTER 6

DOD SERVICE MEDALS

A. INTRODUCTION

1. Service medals, campaign medals, and service ribbons denote participation by a Service member in a campaign, war, national emergency, expedition, or the fulfillment of specified Service requirements in a creditable manner. These awards take precedence immediately after nonmilitary decorations and are normally worn in the order earned. However, actual precedence varies depending upon the Service member's branch of Military Service. Appendix D describes all the U.S. service medals, campaign medals, and service ribbons that have been authorized for the Armed Forces of the United States.

2. Since World War II, there have been over 100 service medals, campaign medals, and service ribbons authorized. In most instances, the Military Services control the policies as they pertain to their Service members. However, there are six service medals that are considered Defense service awards and, as such, the policies fall under the purview of the ASD (FM&P). These service awards are:

- a. The National Defense Service Medal.
- b. The Antarctica Service Medal.
- c. The Armed Forces Expeditionary Medal (AFEM).
- d. The Vietnam Service Medal.
- e. The Humanitarian Service Medal.
- f. Prisoner of War (POW) Medal.

3. Policies and procedures for non-Defense service awards and their appurtenances are determined by the Secretary concerned and, as such, appropriate Military Service regulations should be consulted in determining a Service member's entitlement to a particular award. As for Defense Service awards, the policies and procedures pertaining to these Service awards are outlined, below.

B. NATIONAL DEFENSE SERVICE MEDAL

1. Eligibility Requirements

- a. Authorized by E.O. 10448 as amended by E.O. 11265 (reference (i)).
- b. Honorable active service as a member of the Armed Forces of the United States for any period between June 27, 1950, and July 27, 1954, or between January 1, 1961, and August 14, 1974. For the purpose of this Service award, Service members in the following categories shall not be considered as performing active Service:

(1) Members of the Guard and Reserve Forces on short tours of active duty to fulfill training obligations under an inactive duty training program.

(2) Any Service member on TDY or TAD to serve on boards, courts, commissions, and like organizations.

(3) Any Service member on active duty for the sole purpose of undergoing a physical examination.

(4) Any Service member on active duty for purposes other than extended active duty.

c. Notwithstanding these limitations, any member of the U.S. Coast Guard or the Reserve or Guard Forces of the Armed Forces who, between January 1, 1961, and August 14, 1974, became eligible for award of either the AFEM or the Vietnam Service Medal shall be eligible for award of the National Defense Service Medal.

2. Subsequent Award. A bronze service star shall be worn on the suspension and service ribbon of the National Defense Service Medal by Service members who earned the medal during the period 1950 through 1954 and again during the period 1961 through 1974.

3. Posthumous Awards. The National Defense Service Medal may be awarded posthumously.

C. ANTARCTICA SERVICE MEDAL

1. Eligibility Requirements

a. Any person who, from January 2, 1946, to a date to be announced, meets any of the following qualifications shall be eligible to receive the Antarctica Service Medal. For the purpose of this award, Antarctica is defined as the area south of latitude 60 S. The Antarctica Service Medal is authorized by P.L. 86-600, (reference (j)).

(1) Any member of the Armed Forces of the United States, U.S. citizen, or resident alien of the United States, who as a member of a U.S. expedition, participates in or has participated in scientific, direct support, or exploratory operations in Antarctica.

(2) Any member of the Armed Forces of the United States, U.S. citizen, or resident alien of the United States, who participates in or has participated in a foreign Antarctic expedition in Antarctica in coordination with a U.S. expedition and who is or was under the sponsorship and approval of competent U.S. Government authority.

(3) Any member of the Armed Forces of the United States who participates in, or has participated in, flights as a member of the crew of an aircraft flying to or from the Antarctic continent in support of operations in Antarctica.

(4) Any member of the Armed Forces of the United States, U.S. citizen, or resident alien of the United States who serves or has served in a U.S. ship operating south of latitude 60 S in support of U.S. programs in Antarctica.

(5) Any person, including citizens of foreign nations, not fulfilling the qualifications under subparagraph C.1.a. (1) through C.1.a. (4), above, or subparagraph c.1.b., below, but who participates in or has participated in a U.S. Antarctic expedition in Antarctica at the invitation of a participating U.S. Agency may be given the award by the Secretary of the Department under whose cognizance the expedition falls, provided the commander of the military support force, as senior U.S. representative in Antarctica, considers that the member has performed outstanding and exceptional service and shared the hardships and hazards of the expedition.

b. Subsequent to June 1, 1973, minimum time limits for award are

30 days under competent orders to duty at sea or ashore, south of latitude 60 S. Individuals assigned to duty at an outlying station on the Antarctic continent may qualify for the award after 15 days. Effective July 1, 1987, flight crews of aircraft providing logistics support from outside the Antarctic area may qualify for the award after 15 missions (one flight in and out during any 24-hour period equals one mission). The days do not have to be consecutive.

2. Subsequent Awards. No Service member shall be authorized to receive more than one Antarctica Service Medal. Subsequent awards shall be denoted by wearing of appropriate devices on the suspension and service ribbon of the medal.

3. Devices

a. Clasps. Personnel who stay on the Antarctic continent during the winter months shall be eligible to wear a bronze clasp with the words "Wintered Over" on the suspension ribbon of the medal. A gold clasp is authorized for the second wintering-over period, and a silver clasp is worn to denote the third or subsequent wintering-over period. Not more than one clasp shall be worn on the suspension ribbon of the medal.

b. Disk. The first wintering-over eligibility shall be denoted by a bronze disk worn on the service ribbon of the medal. A gold disk shall represent the second wintering-over period. A silver disk shall represent the third or subsequent wintering-over period. No more than one disk may be worn on the service ribbon.

4. Manner of Wearing. The Antarctica Service Medal shall take precedence immediately after the Korean Service Medal.

5. Posthumous Awards. The Antarctica Service Medal may be awarded posthumously.

D. ARMED FORCES EXPEDITIONARY MEDAL (AFEM)

1. Eligibility Requirements

a. Personnel Eligible. The AFEM, authorized by E.O. 10977, (reference (k)), may be awarded to members of the Armed Forces of the United States who after July 1, 1958:

(1) Participate, or have participated, as members of U.S. military units in a U.S. military operation in which Service members of any Military Department participate, in the opinion of the JCS, in significant numbers.

(2) Encounter during such participation foreign armed opposition, or are otherwise placed, or have been placed, in such position that, in the opinion of the JCS, hostile action by foreign armed forces was imminent even though it did not materialize.

b. Categories of Operations. The AFEM may be authorized for three categories of operations:

(1) U.S. military operations.

(2) U.S. operations in direct support of the United Nations (U.N.).

(3) U.S. operations of assistance for friendly foreign nations.

c. Definitions

(1) The "area of operations" is defined as:

(a) The foreign territory upon which troops have actually landed or are present and specifically deployed for the direct support of the designated military operation.

(b) Adjacent water areas in which ships are operating, patrolling, or providing direct support of operations.

(c) The air space above and adjacent to the area in which operations are being conducted.

(2) "Direct support" is defined as services being supplied to the combat forces in the area of operations by ground units, ships, and aircraft provided it involves actually entering the designated area. This includes ships and aircraft providing fire, patrol, guard, reconnaissance, or other military support.

d. Degree of Participation. Service members must be bona fide members of a unit engaged in the operation or meet one or more of the following criteria:

(1) Be engaged in direct support for 30 consecutive days in the area of operations (or for the full period when an operation is less than 30 days duration) or for 60 nonconsecutive days provided this support involves entering the area of operations.

(2) Be engaged in actual combat, or duty that is equally as hazardous as combat duty, during the operation with armed opposition, regardless of time in the area.

(3) Participate as a regularly assigned crew member of an aircraft flying into, out of, within, or over the area in support of the military operations.

(4) Be recommended, or attached to a unit recommended, by the chief of a Military Service or the commander of a Unified or Specified Command for award of the medal, although the preceding criteria have not been fulfilled. Such recommendation may be made to the CJCS for duty of such value to the operations as to warrant particular recognition.

e. Limitations on Awarding Medals. The medal shall be awarded only for operations for which no other U.S. campaign medal is approved. For operations in which personnel of only one Military Department participate, the medal shall be awarded only if there is no other suitable award available to that Department. The military service of the Service member on which qualification for the award of the AFEM is based shall have been honorable.

f. Election of AFEM or Vietnam Service Medal.

Service members who earned the AFEM for service in Vietnam between July 1, 1958, and July 3, 1965, may elect to receive the Vietnam Service Medal instead of the AFEM. However, no Service member may be issued both medals for service in Vietnam.

2. Approval of Operations. Subsequent to July 1, 1958, the JCS shall designate U.S. military operations that qualify for the AFEM, and they shall specify the degree of participation in designated operations warranting award

of the medal. Appendix E identifies those operations that have been approved by the JCS for award of the AFEM.

3. Subsequent Awards. No more than one medal shall be awarded to any one Service member. For each succeeding operation justifying such awards, a service star shall be awarded and worn on the suspension and service ribbon of the medal.

4. Manner of Wearing. The AFEM shall take precedence immediately after the Antarctica Service Medal.

5. Posthumous Awards. The AFEM may be awarded posthumously and, when so awarded, may be presented to such representative of the deceased as may be deemed appropriate by the Secretary concerned.

6. Streamers. The Secretary concerned may authorize the use of campaign or expeditionary streamers.

For example, the individual must be physically present at the designated location, having contributed to and influenced the action. Specifically excluded from eligibility for this medal are Service members or elements remaining at geographically separated military Headquarters. Award of the Humanitarian Service Medal does not preclude or conflict with other medals or ribbons awarded on the basis of unit achievement, or of individual valor, achievement, or meritorious service. Such concurrence shall include verification of their Service member's participation and the specific recommendations for approval or disapproval.

d. Recommendations must be entered into command channels within 2 years of the military act or operation to be recognized.

a. Award of the Humanitarian Service Medal for DoD Components shall be authorized by the DASD(MMPP) on behalf of the Secretary of Defense. The Secretary of Transportation has delegated approval authority to the Commandant, U.S. Coast Guard, and this authority may not be delegated further.

b. Authority to disapprove recommendations for award of the Humanitarian Service Medal for noncompliance with established criteria contained in this Manual is hereby delegated to the Secretary concerned, or designee, and the Director, Joint Staff.

5. Eligible Operations. See appendix G for those acts or operations that have been approved by the Department of Defense for award of the Humanitarian Service Medal.

G. PRISONER OF WAR (POW) MEDAL

1. Eligibility Requirements

a. Authorized by P.L. 99-145 (reference (n)).

b. Authorized for any person who, while serving in any capacity with the U.S. Armed Forces, was taken prisoner and held captive after April 5, 1917.

(1) Civilians and Foreign Nationals. The POW Medal shall be issued only to U.S. and foreign civilians who have received credit for U.S.

military service, as determined by the DoD Civilian and/or Military Service Review Board and Advisory Board under DoD Directive 1000.20 (reference (o)). The period of creditable military service must include the period of captivity from date of capture through date of release. While no minimum time period of captivity exists as eligibility criteria for the POW Medal, the Services should determine each case on its merits using the language in 10 U.S.C. and the Secretary of Defense Memorandum March 3, 1988 (reference, (c) and (p)). The Secretary of Defense authorized on January 27, 1990, the POW Medal for the Philippine Commonwealth Army and Recognized Guerrilla Unit Veterans who were held captive between December 7, 1941, and September 26, 1945. Form 2510-1 was developed as the application for Filipino Veterans who fit this category.

(2) Missing in Action (MIA). The POW Medal only shall be issued to the legal next-of-kin (NOK) of military personnel or civilians who have received credit for U.S. military service and whose POW status officially has been confirmed and recognized as such by the Military Departments. The NOK of persons listed as missing, but for whom there is no evidence of having been a POW shall not be issued the POW Medal. Return of remains, in and of itself, does not constitute evidence of POW status. The NOK of POWs, who die in captivity, may be issued the POW Medal irrespective of the length of the captivity period.

(3) Hostages, Detainees, and Internees. The POW Medal shall be issued only to those taken prisoner by an enemy during armed conflict. For the purpose of this medal, armed conflicts are defined as World War I, World War II, Korean Conflict, Vietnam Era. Hostages of terrorists and persons detained by governments with which the United States is not engaged actively in armed conflict are not eligible for the POW Medal.

c. Character of Service. Any person convicted by a U.S. military tribunal of misconduct or a criminal charge or whose discharge is less than honorable based upon actions while a POW is ineligible for the medal. POWs whose conduct was not in accord with the Code of Conduct and whose actions are documented by U.S. military records, are ineligible for the medal. Resolution of questionable cases shall be the responsibility of the Secretaries concerned.

2. Subsequent Awards. No more than one POW Medal shall be awarded. For subsequent acts justifying award of the medal, service stars shall be awarded and worn on the suspension and service ribbon of the medal. A period of captivity terminates on return to U.S. military control. Escapees who do not return to U.S. military control and are recaptured by an enemy do not begin a new period of captivity for subsequent award of the POW Medal.

3. Presentation. While Service medals (unlike decorations for valor, meritorious achievement, and service) are not normally presented in formal military ceremonies, military representatives of the active and Reserve components may participate in POW Medal presentation ceremonies, if requested, under guidance and procedures issued by the Secretaries of the Military Departments. Additionally, veterans organizations, former POW associations, public officials, etc., may receive and present the medal to former POWs or their NOK. Engraving of the POW Medal, if desired, shall be at the expense of the recipient.

4. Manner of Wearing. The P.L.99-145 (reference (n)) establishing the POW Medal specifies that it shall be displayed immediately following decorations awarded for individual heroism, meritorious achievement, or meritorious service, and before any other service medal, campaign medal, or service ribbon authorized to be displayed. To ensure consistency among the Services, the POW Medal shall be placed ahead of the Good Conduct Medal in the order of precedence.

5. Posthumous Awards. The POW Medal may be awarded posthumously and, when so directed, may be presented to such representatives of the deceased as the Secretary concerned considers applicable.

6. Procedures for Issuing the POW Medal. The Military Departments shall receive requests for, and issue, the POW Medal to eligible individuals or their NOK, as follows:

a. All requests for the POW Medal will be initiated by eligible former POWs, or their NOK, using a personal letter or DD Form 2510, "POW Medal Application/Information."

b. Requests shall be forwarded to the appropriate Service Records Center.

c. Veterans organizations, former POW associations, public officials; etc., may receive requests for the medal from former POWs, or their NOK, and forward them to the appropriate Service Records Center. Such organizations and/or individuals would agree to receive the medals and subsequently present, or forward, them to the requester.

d. After verification of POW status and character of service of the former POW, the medal shall be forwarded via mail in accordance with the desires of the requester (directly to the requester or to a third party for presentation). A cover letter explaining the background and symbolism of the medal shall accompany the medal.

e. The Services shall issue the medal to eligible active duty former POWs and reflect the award in appropriate records.

CHAPTER 7

FOREIGN DECORATIONS AND SERVICE AWARDS

A. INTRODUCTION

1. Title 5 U.S.C. 7342 (reference (q)) provides for employees of the U.S. Government, including members of the Armed Forces of the United States, to accept gifts or decorations from a foreign government under certain conditions. No employee of the Department of the Defense, however, may accept, request, or otherwise encourage the offer of a decoration from a foreign government. Whenever possible, employees shall refuse to accept such decorations. Refer to DoD Directive 1005.13 (reference (r)) for the policies and procedures applicable to the acceptance of gifts from foreign governments.

2. Conforming to the consent of Congress, it is the policy of the Department of Defense that awards from foreign governments may be accepted only in recognition of active combat service or for outstanding or unusually meritorious performance. Activities normally undertaken by the Armed Forces of the United States in support of an ally during peacetime are not considered sufficient to merit foreign individual or unit decorations.

B. GENERAL PROVISIONS

1. As used in this chapter, the following terms apply:

a. Decorations. Any order, device, medal, badge, insignia, emblem, or award tendered by or received from a foreign government. Although a foreign government may label or consider an item to be a decoration, that designation in itself does not mean the item shall be considered a decoration by the U.S. Government. The key factor is whether the item is similar in nature to individual decorations awarded by the U.S. Government.

b. Employee. Every employee who occupies an office or a position in the government of a territory or possession of the United States or the government of the District of Columbia, or who is a member of the Armed Forces of the United States, or a member of the family and household of any such person. For the purpose of this explanation, "member of the family and household" means a relative by blood, marriage, or adoption who is a resident of the household.

c. Employing Component. The DoD Component in which the recipient is appointed, employed, or enlisted. If a recipient is not so serving, but is a spouse or dependent of a serving individual, then the employing DoD Component is that in which the serving individual is appointed, employed, or enlisted.

(1) The Military Departments are considered the employing DoD Component for all military and civilian personnel assigned to that Department. The Military Departments also act as the employing DoD Component for all personnel, military and civilian, either directly employed or assigned to the Headquarters of Unified and Specified Commands.

(2) The OSD is the employing DoD Component for its military and civilian personnel and those of the Joint Staff, the DARPA, the DSAA, Service members assigned outside the Department of Defense, DoD Field Activities, and other DoD activities not specifically designated as an employing DoD Component.

(3) The Defense Agencies (except DARPA and DSAA) are the employing DoD Components for civilian and military personnel assigned to duty with them.

d. Foreign Government. Includes any unit of foreign governmental authority (including any foreign national, state, local, and municipal government) or any international or multinational organization whose membership is composed of the agents or representatives of any of these foreign governments.

e. Outstanding or Unusually Meritorious Performance. Performance of duty determined by the employing DoD Component to have contributed to an unusually significant degree toward the furtherance of good relations between the United States and the foreign government tendering the decoration. This requires that the service be of national significance to the foreign government and that it be performed under exceptionally difficult, extraordinary, or hazardous conditions.

2. As used in this chapter, the following responsibilities apply:

a. The Assistant Secretary of Defense (Force Management and Personnel) (ASD (FM&P)) shall develop policy and provide guidance regarding the acceptance, retention, and wearing of decorations offered by foreign governments.

b. The Assistant Secretaries of Defense (International Security Affairs) (ASD (ISA)) and (International Security Policy) (ASD (ISP)) shall make recommendations to the Under Secretary of Defense for Policy as they pertain to the acceptance and retention of foreign decorations. This shall include, when appropriate, a recommendation from the DoS.

c. The Heads of DoD Components, or their designees, shall:

(1) Approve or disapprove employee acceptance of decorations from foreign governments for employees, units, or activities of their DoD Component. This authority may be delegated. However, if the recipient of the decoration is in fact the Head of the DoD Component the approval or disapproval determination must be deferred to the ASD (FM&P).

(2) Implement procedures in section D., below, to comply with policies pertaining to the acceptance, retention, and wearing of decorations offered by foreign governments.

d. The Director of Administration and Management (DA&M) shall implement the provisions of this chapter for OSD civilian and military personnel as defined in paragraph B.1., above.

3. Prior Congressional Consent. Congressional authority has been given to the Armed Forces of the United States to accept decorations proffered by friendly foreign governments in recognition of service performed during the periods indicated in subparagraphs B.3.a. through B.3.d., below. However, the decorations must have been presented and accepted by the intended recipient before the expiration date of the applicable Public Law.

a. World War II -- December 7, 1941, through July 24, 1948 (P.L. 80-134), reference (s)).

b. Berlin Airlift -- June 26, 1948, through September 20, 1951 (P.L. 81-503), reference (t)).

c. Korean Conflict -- June 27, 1950, through July 27, 1955 (P.L. 83-354), reference (u)).

d. Vietnam Era -- March 1, 1961, through March 28, 1974 (P.L. 89-257), reference (v)).

C. SPECIFIC PROVISIONS

1. The provisions of 5 U.S.C. 7342 (reference (q)) apply to:
 - a. All members of the Armed Forces of the United States on active duty and all civilian employees of the Department of Defense.
 - b. All members of the Reserve components of the Armed Forces of the United States, whether or not on active duty.
 - c. All retired members of the Regular Armed Forces of the United States who are entitled to pay.
 - d. A member of the family and household of military and civilian personnel designated in subparagraphs C.1.a. through C.1.c., above and all spouses (unless legally separated) and their dependents, as defined in 26 U.S.C. 152 (reference (w)).
2. The provisions of this statute, however, do not apply to:
 - a. Foreign decorations presented or awarded posthumously to a former member of the Armed Forces of the United States.
 - b. Foreign decorations awarded for services while the recipient was a member of the armed forces of a friendly foreign nation, provided the award was made before employment of the recipient by the U.S. Government.
 - c. Foreign decorations in the nature of individual skill badges, awards, or similar devices presented as a result of exemplary participation in official military exchange programs.
 - d. Decorations for service in the Republic of Vietnam (RVN) accepted on or after March 1, 1961, but no later than March 28, 1974.
3. A decoration from a multilateral organization other than the U.N. may be accepted only with the concurrence of the Secretary of State in accordance with E.O. 11446 (reference (x)).
4. A decoration accepted without approval by the employing DoD Component shall become the property of the United States and shall be reported as a gift. Decorations that become the property of the United States and are not retained by the employing DoD Component shall be reported to the General Services Administration (GSA) as excess personal property under the procedures established in DoD Directive 1005.13 (reference (r)).

D. PROCEDURES

1. Normally, senior representatives of the Government of the United States are notified initially by representatives of a foreign government of the intent to proffer a decoration to a member of the Armed Forces of the United States. At this point, a determination shall be made by the employing DoD Component as to whether acceptance is authorized.
2. If the intended recipient receives the initial notification, he or she must notify the employing DoD Component to determine whether acceptance is authorized. Circumstances may arise where an advance authorization cannot be made and, in such cases, Service members may make token acceptance of a foreign decoration, presented by or on behalf of a friendly foreign government. However, such token acceptance does not constitute an official acceptance, which may only be authorized by the Service member's employing DoD Component.

3. Regardless of whether the Service member receives the initial notification or makes token acceptance of a decoration, the Service member must immediately submit a request through command channels requesting permission to accept the decoration. Failure to request permission to accept, retain, or wear the decoration shall result in the decoration becoming the property of the United States and shall be deposited by the recipient with his or her employing DoD Component for disposal as prescribed by law. Requests to accept, retain, or wear the decoration shall contain at a minimum the following:

- a. Full name, grade, social security number.
- b. Title of decoration, country offering it, date and place of presentation, and name and title of person making the presentation.
- c. Recipient's organization and station, and a brief description of the duty assignment during the period being recognized by the decoration.
- d. A statement of the service for which the decoration was awarded. Enclose a copy of the citation if one accompanied the decoration; if not, indicate in the request that no citation accompanied the decoration. (Attach a translation if the citation is not in English.)

CHAPTER 8

ARMED FORCES DECORATIONS FOR FOREIGN MILITARY PERSONNEL

A. INTRODUCTION

1. It is the DoD policy to recognize individual acts of heroism, extraordinary achievement or meritorious achievement on the part of Service members of friendly foreign nations when such acts have been of significant benefit to the United States or materially contributed to the successful prosecution of a military campaign by Armed Forces of the United States. Such acts or achievements shall be recognized through the award of an individual U.S. decoration. However, defense decorations shall not be awarded to foreign military or civilian personnel.

2. U.S. campaign and service medals also shall not be awarded to members of foreign military establishments under normal circumstances.

APPURTENANCES

A. SERVICE DEVICES

Devices are affixed to service or suspension ribbons to denote additional awards or participation in a specific event. Numerous devices have been authorized for the various decorations and service awards awarded to members of the Armed Forces of the United States. In most instances, the Services determine the manner in which these devices shall be worn. However, in the case of Defense awards, the devices to be worn are determined by the ASD(FM&P). The devices that have been authorized for wear on the service and suspension ribbons of Defense awards are:

1. Oak-Leaf Cluster. Oak-leaf clusters are issued in three sizes and two colors. The larger size is worn on the suspension ribbon of the medal, the middle size on the service ribbon, and the smaller size on the miniature medals and ribbons. The two colors are bronze and silver. The bronze oak-leaf cluster is used for the 2nd through the 5th, 7th through 10th, etc. entitlement or award. A silver oak-leaf cluster is used for the 6th, 11th, and so forth, entitlement or award, or in lieu of five bronze oak-leaf clusters. The oak-leaf cluster is worn on the service and suspension ribbon of all Defense decorations and the JMUA.

2. Service Stars. The service star is a bronze or silver five-pointed star, 3/16 inch in diameter. A silver star is worn instead of five bronze service stars. The service star is worn on the National Defense Service Medal, Armed Forces Expeditionary Medal, Vietnam Service Medal, Humanitarian Service Medal, and Prisoner of War Medal.

3. Antarctica Service Medal Clasp. This is a bronze, gold, or silver bar, 1/4-inch wide and 1/2-inches long, bearing the words "Wintered Over." It is worn only on the suspension ribbon of the medal. The clasp is authorized for personnel who stay on the Antarctic continent during the winter months. The bronze clasp represents the first winter-over, the gold clasp the second winter, and the silver clasp the third and later winters. Only one clasp may be worn on the suspension ribbon.

4. The "V" (Valor) Device. This device is a metallic bronze, letter "V" that represents valor. It is worn on the suspension and service ribbon of the Joint Service Commendation Medal when the medal was awarded for acts or service involving direct participation in combat operations on or after June 25, 1963.

(NOTE: When worn with oak-leaf clusters, the "V" device is worn to the wearer's right of the clusters. Only one "V" device is worn, regardless of the number of times earned.)

B. GOLD STAR LAPEL BUTTON

1. The Gold Star Lapel Button is made up of a gold star 1/4 inch in diameter mounted on a purple disk 3/4 inch in diameter. The star is surrounded by gold laurel leaves in a wreath 5/8 inch in diameter. The opposite side bears the inscription, "United States of America Act of Congress, August 1966," with space for engraving the initials of the recipient. The button shall be available with pin-joint and safety-catch fastener or with pin and clutch-type fastener at the option of the recipient. (This button is identical to those authorized under P.L. 82-121 (reference (ff)), except for the date of enactment inscribed on the reverse. b. Service Lapel Button. The Service Lapel Button shall be a blue star on a white rectangular field within a red border, 3/16 inch x 3/8 inch in over-all size (figure 10-1e). APPENDIX B

U.S. UNIT AWARDS

Unit awards recognize entire organizations for outstanding heroism or achievement performed during periods of war, international tension, national emergencies, or extraordinary situations that involve national interests. They are not intended to recognize individual actions, but to acknowledge the combined efforts of the organization. With exception of the JMUA, the Secretaries concerned are responsible for the policies and procedures involving their Service unit awards. Specifics are outlined in Service Directives or, in the case of the JMUA, this Manual and should be consulted for further information. The following is a brief description of the various unit awards authorized for the Armed Forces of the United States:

1. Presidential Unit Citation

a. The Navy Presidential Unit Citation was authorized by E.O. 9050, (reference (fff)). The equivalent award for Army units was known as the Distinguished Unit Citation and was authorized by E.O. 9057, as superseded by E.O. 10694 (reference (ggg)). Both awards were subsequently redesignated the Presidential Unit Citation.

b. Awarded in the name of the President of the United States to units of the Armed Forces of the United States and cobelligerent nations for extraordinary heroism in action against an armed enemy occurring on, or after, October 16, 1941, for U.S. Navy and U.S. Marine Corps units, and on or after December 7, 1941, for U.S. Army units. The unit must have displayed such gallantry, determination, and esprit de corps in accomplishing its mission under extremely difficult and hazardous conditions to have set it apart and above other units participating in the same campaign. The degree of heroism required is the same as that which would be required for award of a Distinguished Service Cross to an individual.

c. Army and Air Force Service members, when authorized, shall wear an oak-leaf cluster for each additional award of the President Unit Citation. Navy and Marine Corps Service members shall wear the 3/16-inch bronze and silver star to denote subsequent unit awards. In addition to oak-leaf clusters and bronze and silver stars, the following devices are authorized specifically for wear on the service ribbon of the Presidential Unit Citation:

6. Air Force Outstanding Unit Award

a. Authorized by Department of the Air Force General Orders 1 (reference (iii)).

APPENDIX H

CITATIONS

1. Citations for the Defense Meritorious Service Medal, the Joint Service Commendation Medal, and Joint Service Achievement Medal shall be prepared on 8 1/2 x 11 inch plain bond paper. Parchment paper, or other suitable paper stock, may be used. Command seals may be imprinted if desired to enhance the quality and esthetic value of the citation.
2. Local manufacture of citations is not authorized. DoD printed heading citations shall be used until current stock levels are depleted.
3. The opening sentence must identify the awardee by grade, name, duty assignment (except where the act was not performed as part of a duty assignment), location, and date (or inclusive dates).
4. The narrative is a short description of the act, achievement, or service. Be specific on facts and confine to no more than two sentences, if possible. Avoid superfluous adjectives and other embellishment.
5. Confine the closing to one sentence, which will personalize the summation, by use of the awardee's name and his or her attributes.
6. In citations for "retirement awards" use the word "long" (closing sentence) only for over 30 years of service.
7. Do not use the words "singularly" and "great" in the closing sentence of citations for the Joint Service Achievement Medal.
8. Do not use code names in citations, nor any abbreviations, other than Jr., Sr., II, and so on, following the Service member's name. For compound grade titles, such as first lieutenant, staff sergeant, and so on, spell out the complete grade title in the opening sentence, and then use the short title in the balance of the citation. Example: lieutenant, sergeant, etc.
